HAVE A LOOK

AT OUR SILVER LEVER WATCH at Rs. 35 before buying, and you will give it the preference before any other.

The Watch as it is now, is the result of 20 years experience in the Indian watch trade, and we guarantee it to be the most perfect watch ever offered to the public for such a small outlay.

Being the manufacturers ourselves, the buyer obtains the watch from first hand. This explains its cheapness.

The Watches are of medium size in heavy engine turned silver cases, either hunting or half hunting. Guarantee 3 years.

To be obtained only direct from our firms at Bombay, Calcutta, and Secunderabad.

COMMERCIAL INTELLIGENCE

TUESDAY EVENING, JUNE 16.

REUTER'S telegrams of Saturday came in late last evening, and we have not heard of any messages of yesterday having been received yet, either public or private.

The movements in the home markets on Saturday were unimportant in all branches. In the Stock Exchange quotations the only alteration was in 4 per cent. Rupee Paper, which was ¼ higher at 75¾. Consols were unchanged at 98.

In the General Produce markets values were all without fluctuation.

The Liverpool Cotton market closed firm, the day's sales being estimated at 7,000 bales—a fair business for a Saturday. Spot quotations were unaltered, but in Americans to arrive a recovery of 3-64d. was reported in all positions except October-November, in which the improvement was only 1-64d. From New York we have been without Reuter's regular messages for the past three days,

In our local Cotton market there is nothing at all doing. The weather would easily admit of shipping operations going on, but the interruption in telegraphic communication interferes with new transactions. Sellers are firm at fully yesterday's rates.

In WHEAT there is not much doing. Lower freights are admitting of a little more buying here and there, but in a general way exporters are unable to pay the figures asked by holders. We quote No. 1 Soft White Pessy at Rs. 3-10 to Rs. 3-10½ per cwt. railway terms, No. 1 Club Delhi at Rs. 3-9 per cwt.

SEEDS have undergone no change. We call Linseed steady, Rapeseed firm at previous prices.

FREIGHTS have had another drop to-day. The idea that the stoppage of Canal traffic might cause a temporary scarcity of tonnage later on had a tendency to support the market in some degree, but the telegram received to-day that the block will probably be removed to-morrow has induced agents to compete more keenly for cargo again. For Liverpool Wheat has been booked at 16s. 3d. per ton old scale, and even at that there is no very large quantity offering. Current quotations are :—

	Ready.	Forward.
Liverpool	15s. 3d. wheat and 20s. meast.	20
Havre	22s. 6d. to 23s.	
Antwerp	22s. 6d.	
Marseilles.....	23s. 6d.	
Trieste-Venice ...	23s. 6d.	

IMPORTS, as a general rule, are extremely quiet. Piece-goods meet a moderate demand at previous prices. Metals are firm. In Coal there is no business passing.

EXCHANGE continues quiet at yesterday's quotations. Very little business is passing, either in the way of private bills or bank paper. Closing rates are :—

Bank Bills on demand	1s. 6 7-8d.	per rupee.
Do. Telegraphic	1s. 6 27-32d.	"
Do. Three months' sight	1s. 6 31-32d.	"
On London ... " ...	1s. 7 1-16d.	"
France ... " ...	2 01¼	"

IN GOVERNMENT PAPER there is nothing specially new to report. A steady market pteva is at Rs. 96¾ for Fours, and Rs. 99¾ for Fours-and-a-half.

SHARES if anything have been the turn quieter to-day. In Spinning and Weaving Mills we notice a decline of Rs. 5 in Jewraj Baboo and Khandesh, Rs. 10 in Manockjee Petit and Soolapore, and Rs. 12½ in Dhurramsey. In Press Companies, Fort are Rs. 25, Apollo Rs. 10, and Prince of Wales Rs. 5 per share lower. Bank of Bombays remain unchanged at Rs. 742½ sellers, Rs. 740 buyers.

The Bombay Gazette

WEDNESDAY, JUNE 17, 1885.

LORD SALISBURY has returned from Balmoral, charged with the task of forming a new Ministry. If the announcement causes surprise, the reason is that people had given the Conservative leader credit for a shrewd appreciation of the obstacles which lay in the way of the undertaking to which he has committed himself. He appears to have grasped at his opportunity without hesitation and without misgiving. He takes his command as though it were an abundant and a well-drilled force with which he is to set out, and as though the enemy which he has to beat were a small and scattered remnant of an insignificant army. Yet he ought to know something of his own weakness, something of the strength of the other side. He ought to know, too, how much truth there is in the prevalent suspicion that nothing would have disappointed Mr. Gladstone more than his refusal to take office. We shall await with no little curiosity the issue of the experiment which he has thus boldly resolved to try. For an experiment it is, in which the chances are certainly not on the side of success. He is not the most likely man to be found playing the game of his opponents, and yet there are strong and obvious reasons for thinking that this is what his resolution must lead to. The circumstances in which the Liberal party find themselves at this moment are precisely such that they must look upon any event which temporarily deprives them of office as providential. Dissensions which were past concealment had broken out in the Cabinet, and there were corresponding cleavages in the Liberal party. The Crimes Act was on the eve of expiring, and the Radical element in the Cabinet threatened to revolt against any substitute for that measure which would perpetuate any but its mildest provisions. Three weeks ago the situation seemed so serious that there were confident prophecies of the formation of a Radical Cave, of secessions from the Ministry, and of a defeat of the Government so soon as they tried to deal with this question. Already attempts to split the party upon this question were causing, the *Pall Mall Gazette* said, "profound annoyance and not a little impatience."

Now we take it that no greater service could be done to the Liberal party than to guard them against threatened disruption in the fashion in which Lord Salisbury is preparing to guard them. They will not split upon the rock of Irish coercion now, because, assuming that the Conservatives take office, they will be spared the risk of sailing in the stormy waters which are beating around it. Lord Salisbury, in short, offers to relieve them of the most serious difficulty which lay before them. They may differ as they please about ways and means of keeping the peace in Ireland, but their differences will cease to be of moment. In the happy irresponsibility of Opposition all this will give them no trouble, and they will not be obliged to show their gratitude to Lord Salisbury for saving them from disruption even by helping him with the onerous task of which he is willing to relieve them. If the Liberals five months hence go to the country a happy and an undivided party they will have to thank him for it, for it is only his accession to office at this juncture which can hide their dissensions. Nor is it in this respect only that Lord Salisbury, as it seems to us, will play the game of his opponents if he takes office now. He will distinctly damage the position of his party at the general election. They will go to the country, not as they would have done had they remained in Opposition, the critics of an Administration which has confessedly been unlucky, and which has rather more than the average number of failures—at least in its external policy—to apologise for. Instead of being the critics, the Conservatives will be the criticised. The five months which will intervene between now and the election will give Lord Salisbury and his colleagues many opportunities of blundering, of which doubtless they will make full use. They will have to deal in the few weeks of the session that remain with the question of coercion in Ireland ; they will have to balance the supplementary Budget upon which Mr. Gladstone came to grief last week ; they will have to take up the threads of the still uncompleted negotiations with Russia, to mend matters in Egypt, to carry forward recent efforts to arrive at a common understanding in regard to the Suez Canal, to settle with Prince Bismarck, perchance, concerning more than one point in foreign and colonial policy. It would be a happy thing for them if they could for the next five months limit themselves to the humble yet useful function of warming pans. But that cannot be. The Queen's Government must be carried on. They must march—they must not merely mark time—and happy will they be if their marchings do not lead them astray. Their own shortcomings will be fresh in the public memory when they ask the nation to confirm them in the position to which chance has called them. For their opponents the interval will be a time of preparation and of reparation—a time in which much may be forgotten and much forgiven. Has Lord Salisbury thought of this ? Has he estimated the advantages which the Liberals will derive if six months are allowed to pass between the last day of their stewardship and the day on which they are to give an account of it ? We should have thought he would have preferred to allow the Government to go their way, adding if they chose to their failures, and accentuating their internal differences, so that they might stand before the Constituencies in the autumn with the ink of the last entry in the record still fresh, and with the sounds of dissension still ringing in the nation's ears.

Lord Salisbury, at any rate, has not surveyed the situation from the point of view of the electioneering agent. He may possibly have accepted office for duty's sake, and he may win credit thereby ; but it is exceedingly doubtful if he will win seats. The only condition under which the new Ministry could pass unscathed through the remainder of the session would be that there should be a truce of parties whereby the majority should bind itself not to attack or even to outvote the minority, and on no account to speak of Lord Salisbury and his colleagues as the Government. Government, in fact, should for the next five or six months be deemed to be in a state of suspended animation, of suspended peccability, of suspended responsibility. It would be manifestly unjust if in the fag end of the session the Conservatives were to be harassed and worried by the people whom they have relieved from the embarrassments of office It ma, indeed be doubted if it would be fair to hold them responsible for anything that may be done between earth and heaven. This would be a strange and unprecedentedly privileged position ; but when did a statesman entitle himself as Lord Salisbury has done, to at any rate the temporary consideration of his opponents ? When was there so exceptional an assumption of office to claim such exceptional treatment ? However, Lord Salisbury has first of all to form his Cabinet—a task of no little difficulty if the paucity of "front bench" men in the party is taken into account. It is just possible that while he is engaged in that work he may hear some plain speaking as to the chances of his enterprise—echoes, perchance, of the speech of Mr. Disraeli which we reprint to-day, in which the troubles of a Minister who tries to govern with a minority are graphically and amusingly set forth.

A MEMORANDUM on the Indian wheat crop of the season 1884-85 has just been published, from which it appears that the year was an exceptionally favourable one for wheat. According to the latest estimate the whole area under cultivation is approximately stated to be 27,620,223 acres, the outturn from which amounts to about 7,713,096 tons. The estimate has been based on an inspection in April last, which embraced nearly three quarters of the total area of wheat c

THE Hon. L. H. Bayley presided at the general meeting in connection with the Mounted Rifle Corps last evening. The proceedings took place at the Chamber of Commerce rooms, and nearly thirty members attended. First, proceeding to the election of officers, Mr. Cuffe proposed Mr. F. A. Little as captain and Mr. J. Lyttleton Symons as lieutenant. On balloting, these nominations were almost unanimously approved. Mr. Cuffe had a majority as sub-lieutenant, but confessing that he preferred to serve as a trooper, a second ballot took place, when Mr. Nicholson was elected; Messrs. Fraser, Hore and E. F. Nicholson having acted as scrutineers. Captain Little, on behalf of the officers, suggested that the hon. secretaries (Messrs. Cuffe and Rivett-Carnac) should be associated with the officers as a committee, with power to add to their number, to work out the details. A khakee uniform, with red braiding, was shown in the room with the rest of a specimen kit; but it was eventually decided to leave the details to be settled by the officers' committee. A vote of thanks to the chairman was proposed by Mr. Cuffe, and in seconding it Captain Little reminded them that Colonel Bayley was also their commanding officer, as they were for administrative purposes allied to the Bombay Volunteers. He expressed his pride at having been chosen to command the Mounted Rifles, and his assuredness that the interests of the corps would be promoted to the utmost. In his reply Colonel Bayley said he was extremely happy at the formation of the Mounted Corps. He had no doubt Captain Little, whom he had seen drill in years gone by, when none knew his infantry drill better, would do all in his power. Next season they would doubtless put in an appearance that would astonish the whole of the city.

AT the meeting of the Bombay Corporation yesterday, Mr. K. N. Kabrajee moved, in accordance with a notice given by him, that the committees appointed by the Corporation on the questions of the Flats nuisance, and of the condition of the dwelling houses of the poor be requested to send in their reports without further loss of time, and that if the reports were not yet ready, they should explain the reasons of the delay. One of these committees was appointed a year and a half ago, and another a twelvemonth ago. Dr. Blaney, as a member serving on both the committees, defended their action, saying that the delay was in no way caused by any neglect or indifference on their part. On a division, Mr. Kabrajee's proposition was carried by fourteen votes against nine. Another business before the meeting was Dr. Blaney's motion for the appointment of an efficient Assistant Municipal Commissioner, to relieve the Commissioner of a portion of his ever-increasing work. It was thought by Dr. Peterson and Mr. Geary that before settling the question off-hand the Corporation should ascertain whether the Commissioner was himself in need of any assistance. Mr. Geary moved an amendment that a committee consisting of the chairman, Colonel Merewether, Dr. Blaney, and Mr. Sayani, be appointed to confer with the Municipal Commissioner on the subject. In the course of discussion, some members expressed their opinion against increasing their expenditure by creating a new appointment; and eventually both the amendment and the original proposition, on being put to the vote, were lost.

COLONEL ATAULLAH KHAN, who was recently ... to succeed Colonel Afzul Khan as British Agent at Kabul, left Peshawur a few days ago for Kabul with a small personal escort. He will be met at Lundi Kotal by an Afghan escort, who will accompany him on the journey.

Two experimental silos have lately been opened at Rawal Pindi. A quantity of churry had been closed up for several months. When opened, it was found to be quite fresh, and was eagerly devoured by the bullocks who formed the testing committee.

THERE is likely to be some work for Colonel Lockhart at Gilgit. The son of Raja Jafar of Nagyr has fled from his country to Hunza, the hereditary foe of Nagyr, and the latter is now arming to invade the stronghold of the drunken voluptuary Ghazan Khan, the Robber Chief of Hunza. All the Shiahs who have been turned out of Hunza, and the relatives of those who have been killed or sold into slavery in consequence of their refusal to acknowledge Ghazan Khan, as a representative of Ali and Ali as the Deity, are flocking to Nagyr.

A FRACAS occurred recently on the Afridi frontier in which, according to our Lahore contemporary, a deputy inspector of police named Sher Ali "came out very well." Failing to re-arrest a "notorious murderer" who had been rescued by the Afridis, he shot the man three times with his revolver. The notorious murderer has since died; and so far, provided that there is no doubt about his guilt, the world is a gainer. But even deputy inspectors of police, remarks the *Pioneer*, must not do evil that good may come. The police have no right to use their weapons except in self defence, and though a struggle certainly occurred, it is not stated that Sher Ali fired all three shots merely to save himself from further violence. If the police, even in rough districts like our Afridi frontier, are allowed to shoot down untried men, we shall soon approach the complicated legal practices of Western America, where the sheriff and his *posse* commence a desultory firing at long ranges upon suspected persons, and the proceedings generally culminate in a lynching, with two or three accidental shootings of by-standers thrown in. Unless it can be shown that Sher Ali was obliged to fire three times in self-defence, he deserves, not the congratulation which our contemporary bestows, but an official reprimand.

OUR London correspondent writes:—Some strong language has been used in the discussion started by the *Times* on the subject of the increasing frequency of the exhibition of studies of the nude at the Academy and Grosvenor galleries. The fact that the nudities are on the increase is undeniable, and some of the critics in the *Times* of the "British Matron's" letter protesting against the growth of this new fashion seem to me to behave badly in questioning the sincerity of the "Matron's" protest that she is shocked at what they regard as exquisite representations of the female form. It is not to the point to sneer at the "Matron," and to ask her why she does not blush at what she sees in ball-rooms or on the stage. As a matter of fact, though fashion prescribes low dresses for evening wear, it will not have them too low. Even in the days of the French Empire, when luxury ran riot at the Court, some amount of drapery was considered indispensable. On the stage, again, the Lord Chamberlain is supposed to draw the line somewhere, though it may not be easy sometimes to say where it is drawn; and, besides, the "British Matron" might retort that she fancied the morality of the Royal Academy was a little more elevated than that of the Gaiety Theatre, which she is not in the habit of attending. Some of our artists, on the other hand, take the bold course of maintaining that the spectacle of the unadorned female form ought to excite the noblest motions, and that they paint the nude with the express design of elevating the moral character of the community. One is tempted to say, What humbugs these men must be! Take Mr. Paynter's Diadumené in this year's Academy, probably the most successful effort any English artist has yet made to put on canvas the form of a beautiful woman. Mr. Paynter says he took the idea of his picture from the statue of a Venus discovered at Rome during the last ten years. But I suppose there can be no doubt that the pictures and statues of Greek art appealed to sensual tastes. Religion itself was then sensual, and the proscription of art by the Christian Church was the result of a revulsion of public sentiment in favour of a higher morality. The great painters of the Renaissance would not have condescended to pretend that their studies of the nude were meant for any other purpose than to please the eye. Would Titian have said that he painted his Venus to make men more moral? Let our artists set aside affectation, and tell the plain truth, that their pictures of the nude are produced under the inspiration of the same sentiment which runs through Mr. Swinburne's earlier poems. There is far too much hypocrisy in all the tall talk we hear from painters about the ennobling influence of their art.

MR. DEMETRIUS BOULGER has published a book entitled "Central Asian Questions." The essays collected under this title relate to affairs in Afghanistan, Central Asia, Kashgaria, China, and Tongking, and have appeared during the last six years in the quarterlies, principal magazines, and the *Times*. The volume contains three maps and a portrait of the author, and it is dedicated to Sir Lepel Griffin.

It is understood that a conference of inspectors of schools in the Punjab will shortly be convened at Simla under the presidency of Mr. D. Ibbetson, who will thus have the advantage of opinions from the native standpoint, the majority of inspectors being natives, whilst they will derive the benefit of his experience in the civil administration.

It is stated that Mr. Bell, M.A., who is, perhaps, coming out immediately, has been appointed Principal of the Central Training College at Lahore, and that Professor R. Dick, M. A, the present incumbent, to whose exertions the status which it has reached is due, will be appointed Inspector of Schools of the Lahore Circle, which is the most important one in the Punjab.

THE following appears among the notices of motions to be brought before the House of Commons at an early date:—

"Mr. Frith,—Lala Anoop Sing.—To call attention to the circumstances under which Lala Anoop Singh was removed from the Government service, and deprived of the title of Rai Bahadur; and to move, that, in the opinion of this House, the orders dismissing Lala Anoop Singh from the Government service, and depriving him of the title of Rai Bahadur, ought to be cancelled."

Anoop Singh is the Commissariat gomashtah who, after the late Kabul war, was tried and honourably acquitted by the Deputy Commissioner of Lahore, on a charge of giving bribes to the Tehsildar of Jhelum, in connection with the lists of prices-current prevailing in the Jhelum Tehsil. After his trial, the Government ordered his dismissal from the public service, and deprived him of the title previously conferred upon him for his long and valuable services. He has now petitioned the House of Commons for redress, and Mr. Frith, one of the members for Chelsea, has taken up his case. It is said that the support of other members of the House has also been enlisted in his behalf.

THE Russian Admiralty have instituted a most severe test for the Hotchkiss and Nordenfeldt guns. Two torpedo boats advanced, at a speed of twelve knots, against a cruiser. They commenced at 1,000 yards, and ceased at 275. The Hotchkiss gun was used against one torpedo boat; the Nordenfeldt against the other. The former was sunk twice—the latter not at all. The Hotchkiss fired 230, the Nordenfeldt 900 rounds. The cost of the 900 rounds was double that of the 230. This was a clear victory for the Hotchkiss.

THE progress of science during the last hundred years is receiving a practical illustration just now at New York off Port Morris. In 1780 the British frigate Hussar sank at the spot with a million sterling on board, which was to have been used for paying arrears due to the British troops. A few unsuccessful attempts have been made from time to time to recover the money, but it is only quite lately that the full resources of science have been turned to the task. The Hussar is under 90 feet of water, and is covered by a mass of mud and stone to a further depth of some 60 feet. When all this has been drilled through, there is to be an elaborate arrangement of suction pipes, powerful enough to draw up stones four inches thick, and if these fail, a large pipe 5 feet in diameter will be sunk to the true bottom of the river for men to work in. The company's name—the "Treasure Trove Company"—which has the job in hand looks confidently to "strike gold" within a month's time.

MR. HERBERT SPENCER'S latest move in his controversy with Mr. Frederic Harrison opens up a wide field of possibilities. The move consists, according to Mr. Harrison's account of the matter, in pirating your opponent's productions and publishing them in America with controversial amenities of your own. It is as if Mr. Freeman were to edit an American edition of Mr. Froude, or Professor Ray Lankester, let us say, one of the late Bampton lectures. Mr. Harrison's own threatened retort is more alarming still, and we shall expect to see an announcement very soon from New York of

AUTHOR'S MORALS,
by
A CANDID FRIEND.

Mr. Spencer and Mr. Harrison says the *Pall Mall Gazette*, should really be bound over to keep the peace at once.

EXACTLY ten years ago this year the Dutch Government commenced a war at Acheen, in the north of Sumatra, which has continued without interruption down to April. The naval and military forces of Holland have been perpetually engaged, mostly around the town of Acheen, but occasionally elsewhere in Northern Sumatra. What the struggle against the semi-savage Sultan of a few thousand square miles cost in men and money will probably never be fully known. The war has weighed down the Dutch East Indies, the national Budget of which has shown an annual deficit of from nine to fifteen millions of florins caused mainly by it. An army of about 20,000 men has had to be maintained fighting almost under the Equator by constant drafts from Java and ultimately from home. Now that it has come to an end, what, it will be asked, has been the result of efforts of such magnitude continued over ten years? The answer, says the *Pall Mall Gazette*, is practically nothing. The Acheenese are still in arms and unsubdued. By constant fighting they have been cleared out of a space of about twenty square miles around the port of Acheen. This the Dutch will continue to hold by means of a number of redoubts and a large force. The blockade of the other ports (of which we heard so much during the discussion of the Nisero question) has been raised; two of them only, Oleleh and Pedis, are to be retained by a force said to number 5,500 men. The rest of the Dutch forces are to be withdrawn, and the war is at an end until the Sultan likes to resume his attacks on the forts, he which is quite certain to do as soon as he finds it convenient.

THE Spanish Government have telegraphed to the authorities of the province of Valencia to stop all the inoculation experiments of Dr. Ferran, on account of reports that several persons thus inoculated have been attacked with cholera. The Supreme Board of Health at Madrid has, by a majority, endorsed the action of the Government. The defence of Dr. Ferran and his system has (the Madrid correspondent of the *Standard* says) been very warmly taken up by a majority of the newspapers and by some medical men, who consider the conduct of the Government arbitrary. Dr. Ferran began inoculation in March, and operated upon 6,500 persons; other surgeons inoculated a large number. He believes that a single inoculation is often a sufficient preservative; but he recommends a second, and even a third experiment, as not a single person who has been inoculated has died of cholera. The greatest care must be taken to examine the virus used, with a microscope, to ascertain if it is sound, and if no other element or microbe has got mixed with the cholera vaccine. Dr. Ferran expressed the belief that the incorrect local reports and his well-known opposition to antiquated sanitary rules and quarantines had led the Home Office and the Supreme Board of Health for the present to suspend inoculation; but he will accompany the Royal Commission when it is sent to Valencia. His conviction is that the surgeons who will be placed on the Commission will pronounce in favour of the use of this preventive in districts where every one fears a more serious outbreak this summer. Should further experiments be stopped, Dr. Ferran will visit Paris and London. His earnest desire is to be allowed to go to the East, and especially to British India and the Ganges Valley, to try his experiments in the cholera-stricken districts in those lands.

MILITARY NEWS.

THE Government hired transport Dacca arrived in harbour yesterday from Suakim, which she left on the 7th instant. From Suakim she brought Captain Willcocks, Captain Wilkinson, R. E., Lieutenant Danner, R. E., Lieutenant L. Royd, and over twelve hundred labourers and followers.

DESTRUCTIVE FLOODS IN PERSIA.

MR. ARDESHER MEHRBAN, Eranee, sends us the following:—"My agent writes from Yezd in Persia, in a letter of the 23rd May, that three days before there was a dangerous flood which has caused serious destruction in many districts:—Taft, Mooboraka, Hoosainee, Zainabad, Chem, Casumabad, Rahmabad, and Rahmatabad, a town in Taft, 15 miles from Yezd, is totally destroyed by flood. The water began to come very forcibly; seeing this people ran away to a high hill, but unfortunately an old Parsee Eranee woman, unable to walk, was swept away in the flood, and drowned. After the flood had abated, the people of Rahatabad came down from the hill, to find that their houses had disappeared. All their property and goods were swept away, and some of the people have had difficulty in discovering their own ground. In Yezd the abating flood has destroyed all the water-works (Neuer) which were supplying water to the whole of the district, and there is a scarcity of water there.

TELEGRAPHIC WEATHER REPORT.

SIMLA, June 16.—The barometer has fallen everywhere except in Madras. The pressure is below the average, and lowest under the Punjab hills. North-west winds prevail in the Eastern Punjab, Rajputana, the north-west Provinces, Chutia Nagpur, and the Sunderbunds; and westerly winds in the plateau of the Deccan. A NEW MEDICAL SCHOOL FOR BOMBAY.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—At page 957 of the *Lancet* of May 23 a small but very effective paragraph appears headed "Medical Education in Bombay," in which the editor fully agrees with the view some time ago expressed by a committee of the Grant College Medical Society, that there is an absolute want of another medical school in Bombay. Dr. Cook, the present principal of the college, and also the chairman of the medical committee, an able adviser on questions concerning medical interests, has, in his last year's report about the working of the Grant Medical College, very strongly dwelt upon the necessity of having an increased accommodation for the growing want of students, whose number has been increasing every year. He has also laid great stress upon the inadequacy of the present teaching staff. Dr. Hojel, an equally able and energetic medical officer, and an important member of the medical committee, shares the views of his colleague. His advice and valuable suggestions are the result of his past experience in connection with the J. J. Hospital and the Grant Medical College, has worked for a long time both as a clinical teacher at the bedside and as a college lecturer. His conviction about the state of things as they at present stand, both as to accommodation for the students and the teaching staff, is that there is great urgency for a new medical school. He has often stated that, while lecturing before a large class, he has found it extremely difficult and even impossible to work with them. The number of students has now reached about 375 or more, including the female pupils. The hospital work has also increased with the growing population of the city. To meet these difficulties nothing seems to have been done. There is no appreciable increase in the staff of teachers, and the classes being so very large and unwieldy the students cannot receive the benefit of efficient teaching. The hospital work must, as a consequence, be carried on with the utmost strain upon the working capacities of medical officers. All these inconveniences and disadvantages can best be avoided by having a new medical school; no permanent good can result from enlarging the present college premises. Why not, I ask, give the much-needed relief in the most effectual way, that is, by having another college or medical school built in connection with another hospital? The Goculdas Tejpal Hospital might serve all the purposes with advantage to students and benefit to the public.

In the *Bombay Gazette* of the 13th inst. a small para. appears to the effect that a philanthropic native citizen has expressed his willingness to give one lakh of rupees towards the erection of a clinical hospital for women and children, should Government undertake to provide for and look after it. It is extremely probable that the munificent offer will be declined by Government, both on the ground of retrenchment and of the undesirability of a new clinical hospital for women and children on the face of the fact that there will shortly be another such institution, namely, the Cama Hospital. The stipulation that the hospital should be maintained by Government will be another important ground for the Government not accepting the donor's generous offer as it is, as the acceptance of such an offer will entail an enormous expenditure on the public exchequer which it can ill-afford to bear. Those who have watched the progress of the Goculdas Tejpal Hospital from its infancy will find that it has cost a very large outlay to Government, in addition to Rs. 1,50,000 given by the donor. From its commencement the cost of its maintenance, which is nearly half a lakh, was provided partly by Government, but mainly by the Municipality.

In these days of retrenchment, the Government has been requested by the Municipal Corporation to transfer the entire management of the Goculdas Tejpal Hospital to them, and there is every probability that the Government, who have full confidence in the efficiency of the work done by them, will not grudge to do so. Under the circumstances would it not be desirable, both in the interests of students and of the public, that this offer of one lakh of rupees should be slightly modified, by a request on the part of the donor to add a wing to the G. T. Hospital, where it is most needful, and to utilise it for the purpose of giving clinical instruction to students by forming a laboratory—chemical and pathological? This done, the pressing demand for a new medical school will be effectually met. The Municipal Corporation will then be asked to increase their yearly contribution towards the expenses of the G. T. Hospital, and I am sure that they will not hesitate to provide increased funds for that purpose.

Some months back the Government of Bombay generously consented to support privately endowed charity, and a hospital for women and children is now being built, the donor only contributing about a lakh and few thousands. I refer to the Cama Hospital. This hospital, when completed, will be utilised as an obstetric hospital and a hospital for diseases of women and children. This hospital can very well serve the purpose of imparting clinical instruction to the Grant College students, and I do not see the necessity for another clinical hospital, which will involve the Government in additional unnecessary expenses.—Yours, &c.,

R. N. KHORY.

A DIRTY STREET.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—We shall be glad if you will call attention to the dirtiness and wretched state of the Mahomed Syed Mukhri-street, near the Mosque, Musjid-bunder, the condition of which is not to be equalled by any of the dirtiest localities of the town. The street is frequented daily by hundreds of pedestrians; nuisances of all kinds abound. Besides this, there are nearly ten godowns of sugarcane, and the sellers make heaps of rubbish by cleaning and peeling the canes and exposing them along the road to rot in the rain and in the waste water falling from the windows of the residents there. This adds to the dirtiness, and threatens to give rise to some epidemic. Kine and other cattle lie there for the whole day as if in their folds. We have frequently reported the nuisance to the authorities, but without result.

GOD SAVE THE QUEEN.

FORT POLICE COURT.—Mr. C. P. Cooper, Chief Presidency Magistrate, having returned from Matheran, resumed his duties in the Fort Police Court yesterday.

PRINCE'S DOCK.—The s.s. Bessie Morris left the dock on Monday; the s.s. St. Bernard, Newnham, and Clare entered, and the s.s. Teheran, The Queen, Othello, and Accomac left, it yesterday.

DANGEROUS TRAFFIC.—Chrishna Suckoo, a tindal, was fined Rs. 50 by Mr. Cooper yesterday for carrying fifty-four passengers, thirty-four in excess of the number allowed, during the monsoon, by his licence. Sadasew Tuckeram, another boatman, was fined Rs. 20 for carrying sixteen excess passengers.

A BREACH OF THE LIQUOR LICENSE.—Balaram Govind, a servant to a country-liquor shop-keeper at Haines-road, was yesterday convicted by Mr. Cooper of having sold liquor during prohibited hours on Monday night. He was fined Rs. 10. The owner of the liquor shop, who was also charged with the offence, was warned and discharged.

DEATH FROM SNAKE-BITE.—A coroner's inquest was held yesterday at Sion, on the body of Manuel, aged 30 years. Deceased was a cook in the service of P. J. O'Neil, store sergeant, Ordnance Department, at Dunvegan Hill magazine, Sion. Deceased was bitten on the index finger of his right hand by a snake, while lying on his cot in the kitchen. He died three hours after. The verdict was that the death of the deceased was caused by snake-bite.

SUICIDE.—A coroner's inquest was held yesterday at the J. J. Hospital, on the body of Sheik Abdool Shaik Baeekun, aged 25 years. Deceased was an habitual drunkard and of bad character. In consequence of his mischievious behaviour his mother turned him away from her house. On Monday afternoon he was found lying in an unconscious state, having taken opium. He was removed to hospital, where he died shortly after admission. A verdict of suicide was recorded.

ASSAULT AND DISORDERLY BEHAVIOUR.—Abdool Cadur was yesterday charged before Mr. Dosabhoy Framjee with assaulting Bhicoo, a sweeper in the employ of the Municipality, at the Worlee sluices, on Friday. Three other Mahomedans were charged with disorderly behaviour under the same circumstances. It appears that on Friday the four accused were fishing at the Worlee sluices, a place not set apart for fishing. The tackle used by one of the men fouled a net that was spread across the sluice by the Municipal servants employed to clean it out. An altercation ensued, and the first accused assaulted Bhundoo, when a general affray took place, in which the other three accused joined. The police were sent for, and the accused were arrested. The first prisoner was fined Rs. 15, and the others Rs. 2 each. The fourth man, who appeared not to have taken an active part in the matter, was warned and discharged.

A RAID ON GAMBLERS.—At the Fort Police Court yesterday, before Mr. Cooper, Inspector Dillon charged Changer Jamsetjee and four other Parsees and a Goanese boy with gambling with cards, dice, and money. One of the Parsee prisoners informed the inspector that gambling was going on in a house at Dhobee Talao not far from the police-station where Mr. Dillon lives. The latter instructed the informant to join the gamblers, and when they were deep in the game to make a sign to him from a window. This was done, but just as the inspector was about to enter in which the Parsees were playing, the woman gave the alarm by shouting that the police had come. By this means she enabled the owner of the house, her husband, and one of the most desperate gamblers, Pestonjee Dadyboy, to escape through a window. All admitted gamoling, except the last accused. Two of them, who admitted a previous conviction for gambling, were fined Rs. 20 each, or, in default, to undergo one month's rigorous imprisonment. The informant and the last accused were discharged, and the other two were fined Rs. 5 each. Mr. Cooper granted summonses against the two gamblers who escaped.

AN UNREASONABLE WOMAN AND HER COOK.—Kairau, a Mahomedan woman, was yesterday charged before Mr. Cooper with assaulting an old woman named Joomulia, her cook. It appeared that the old woman had not been paid for her services for a long time. She determined to ask for her wages, but knowing the character of the accused, feared to do so, and accordingly took some liquor to stimulate her courage. Under its influence, at the late hour of seven o'clock in the morning, she demanded her wages. As she expected, the virago set upon her and gave her three slaps. One, received on the mouth, knocked out three teeth, which presented in court to the complainant, carefully wrapped up in a piece of paper. She fell down, and the accused sat on her, abusing and beating her. The accused stated that her cook was drunk and abused her, and she slapped her. Inspector Nolan stated that when a complaint was made to him, and he went to the house of the accused, she would not allow him in, and shut and barred the door. He had to get in at a back entrance. Mr. Cooper.—When did you find a woman do a reasonable thing? (Laughter.) The inspector said the accused was a nuisance to the public in the neighbourhood. Mr. Cooper said she was not charged before him with being a public nuisance. It appeared to him that both had been drinking, and the best thing they could do was to settle the affair between themselves.

ADDITIONAL PASSENGERS BY THE HOMEWARD MAIL.

THE P. and O. Co.'s s.s. Teheran, Captain W. J. Nantes, sailed yesterday for London, with the European mails and the following additional passengers:—

HIGH COURT.—JUNE 16.

(Before the Hon'ble Mr. Justice SCOTT.)

THE NARAYEN COTTON MILLS COMPANY VS. HARI HEMRAJ.

MR. LANG, instructed by Mr. Muljee for the defendant, applied to have the suit transferred to the long causes list, remarking that the same question that was raised in this case would have to be decided in other cases recently filed. It was a suit for recovering calls, and the defence was that the defendant was induced to take up shares in the company on the faith of the statements made in the prospectus, which were lately found to be false and fraudulent. Some of the shareholders were therefore about to file suits to relieve themselves of their responsibility.

Mr. Macpherson, instructed by Messrs. Bomonjee and Hormusjee for the plaintiffs, said the hearing would take a long time if the defence set up was allowed to be gone into. The learned counsel submitted that it could not be allowed. It was a claim for calls against the defendant, who had signed the memorandum and articles of association; and that was conclusive against him. If the shareholders liked, they could have the company wound up.

Mr. Lang said the defendant and other shareholders wanted to take themselves off the register, as they had fraudulently been induced to take up the shares. The defendant was prepared to file a plaint in a few weeks.

After some further discussion, the suit was transferred to the long causes list.

THE EASTERN ELECTRIC LIGHT AND POWER COMPANY VS. PREMCHUND ROYCHUND AND OTHERS.

Mr. Inverarity, instructed by Messrs. Ardasir and Hormusjee, for the defendants, asked that the suit be adjourned for three weeks, and that the plaintiffs be ordered to pay the costs of the application. The suit was on the board on the 28th April last, when it was adjourned by consent till to-day. The suit was brought for specific performance of an agreement to purchase; and that was conclusive against him. If the shareholders liked, they could have the company wound up.

OPINIONS OF THE PRESS.

Drs. Engler and Jansz are, by the exercise of their peculiar skill, doing a great deal of good in Bengalore. We have paid a casual visit to Dr. Engler's surgery to see for ourselves what is being done in the way of cures. Of coure we speak unprofessionally, but we do not know that professional knowledge is required to judge as to results when seeing and hearing of patients themselves are freely allowed. Three cases of blindness, two nearly total, and one total in one eye, were, according to the testimony of the sufferers themselves, progressing with wonderful favourableness. One in which inflammation and granulation of the inner surface of the eye-lids had lasted for months, and had caused ulceration of the eye-ball, was almost cured after about a fortnight's treatment, although previous treatment had failed to give relief. In another case, where both eyes were seriously affected the patient was considerably better, and in the one in which the sight of one eye had been lost, it was restored, and though not completely recovered, was on a fair way towards it. This patient freely and without effort read from a newspaper with the injured eye, though no sight whatever was in it a few days previous. In cases of deafness Dr. Engler seems even more certain of success than in blindness. One little girl, who had been deaf for years, was restored so far as to be able to hold a conversation in ordinary tones; she heard the softest spoken words and answered to them, and heard the ticking of a watch held from four to six inches from her ears. Two soldiers belonging to the garrison, suffering from deafness, have been cured; one, a man who had been in hospital for weeks and been blistered and put to great pain by ordinary treatment, perfectly recovered his hearing in twenty-four hours.

We are quite aware that any detailed notice of such cures as these are apt to be looked at askance by the general public. But this, we fancy, is the result of the infrequency of such notices. Why men who benefit the suffering members of the public, as Drs. Engler and Jansz are undoubtedly doing, should receive no attention from the press, when whole columns are given up to descriptions of the tricks of some travelling juggler, it would be perhaps hard to explain. It is a fact, however, that while the public naturally has to pay for both, the one who goes most good is the least noticed.—*Bangalore Spectator Dec.* 1883.

SARSAPARILLA.

Wilkinson's Essence or Fluid Extract of
RED JAMAICA SARSAPARILLA

Is the ONLY PREPARATION RECOGNISED by the FACULTY as a WONDERFUL PURIFIER of the HUMAN BLOOD.

It is not too much to say that those suffering from the effects of TROPICAL CLIMATES, such as TORPID LIVER, DEBILITY, ATTENUATION of BODY, ERUPTIONS, LASSITUDE, &c., will by taking this extraordinary ESSENCE of RED JAMAICA SARSAPARILLA, soon find relief and ultimately a cure. It is asserted by those who take a little DAILY the system become less liable to attacks of illness.

"We cannot speak too highly of it."—*Lancet.*

"We recommend it as the best *Sarsaparilla*."—*Medical Review.*

"Theonly preparation for removing what may be called the Sequelæ of a mercurial course."—*Sir R. Martin.*

The late Lord Clyde, writing for a further supply of *Wilkinson's Sarsaparilla*, says, "I am never without it, for when feeling depressed or out of sorts from anxiety or fatigue, a dose or two animates me."

"Your Essence of *Red Jamaica Sarsaparilla* CURED me of a Torpid Liver after all other remedies failed."—*Earl of Aldborough.*

PREPARED ONLY BY
THOMAS WILKINSON (Member of the Pharmaceutical Society), 270 Regent St., London.

CAUTION.—Many spurious, worthless, and injurious preparations are offered to the Public; see that both Bottle and Label bear the Name and Address also Trade Mark (W. in a diamond) at the bottom of the bottle.

GANDY'S AMERICAN COTTON BELTING

TO those having the use and care of machinery it is of the greatest importance to know what is the best belting to use to transmit power To such and to all the answer is, USE THE GANDY BELT.

It has imitators, and this is the strongest proof possible, that is an article that is worth spending cash on to imitate. If it were a worthless article, or one that had not been VERY SUCCESSFUL, no one would go to the expense and trouble to imitate it. Imitation is the strongest form of flattery, and those who imitate the "GANDY" belt are proclaiming to all belt users, that the GANDY belt is the best that has ever been put before the public.

The GANDY belt has acquired such a deservedly high reputation, that belt users, afte having tried all others, come back to Gandy and declare that, notwithstanding the difference in price, they find it to their advantage to use the American Cotton Belt made, only by the inventor and patentee

MAURICE GANDY
